

## SEEKS WIFE AND HIS SEVEN GIRLS

Husband and Father Wild on Realizing that His Family is Lost in New York and Without Friends.

KNOWS THEY ARRIVED HERE.

Has any one seen Mrs. Mary Dignan and her seven pretty daughters? They are supposed to be lost in the wilds of Manhattan, and the police are eager to search for them. The husband and father, Arthur M. Dignan, is also on the alert, and when last seen early today was headed toward the east side in a vain hunt for his missing family.

Mr. Dignan is an Englishman, but Hartford, Conn., is his home. His daughters were born there and four of them grew to womanhood under the shadow of Senator Hawley's newspaper office. The other three have not yet reached maturity, but they are growing rapidly.

A fortnight ago Mr. Dignan came to New York. He registered at the Mills Hotel and made the acquaintance of George Francis Train. Incidentally, he went to work for Mitchell, Vance & Co., at Tenth Avenue and Forty-fourth Street. Then he prepared to add his family to the population of this city. To accommodate them he rented a flat at No. 450 West Thirty-first Street and sent for his family.

They were to have arrived here yesterday by boat. Dignan, however, delayed in leaving Hartford. He telegraphed to that city and is awaiting a reply. In the mean time he is continuing his search.

Commencing November 2.

The Rock Island's new Golden State Limited train will run daily, Chicago to California, via El Paso, on their fast 6-hour schedule. It is no longer necessary to go 74 miles out of your way to reach Southern California. Rock Island trains go right to the spot. Most southern routes. No snow, no high altitudes; no heavy grades. For folders, maps and particulars address A. H. Moffet, Gen'l Eastern Pass. Agent, 401 Broadway, N. Y. C.

## FOUGHT IN COURT FOR THEIR CHILD

Wife Fought at Husband and Between Them They Nearly Tore Youngster's Clothes Off, While Judge Took a Hand.

IN SUIT FOR SEPARATION.

The Adams Street Court, in Brooklyn, took the scene of a sensational struggle over the custody of a seven-year-old boy, in which both the father and mother made such desperate attempts to gain possession of the youngster that the Judge was forced to take a hand in the proceedings himself. John A. Person, a member of the law firm of Elliott, Jones & Eber, of No. 114 Montague Street, who is temporarily living at the Clarendon Hotel, brought suit for separation from his wife, Emma, before Magistrate Steers on the ground of abandonment. After listening to both sides, the Judge decided to adjourn the case a week. Person thereupon begged the Judge to let him have the custody of the child pending the trial of the case.

The Judge told Mrs. Person that she must let her husband see his son whenever he wanted to. She took the little boy by the hand and attempted to lead him out of the court-room. In an instant Person sprang at her and seized the child. The mother screamed and flew at her husband like an infuriated animal. Both parents grasped the child and in trying to get him away from the hold of the other almost tore his clothes from his back.

Policeman Quigley took the child from the contestants and handed him over to the railing to Magistrate Steers, who stood up, and in an impressive manner ordered the warring couple out of court. Person walked out, but his wife took a seat at the back of the court-room to await developments.

A patrolman who was sent down stairs on an errand discovered Person waiting for his wife just outside the building. He reported the matter to the Judge, who sent him down again to warn Person that if he did not get away from the vicinity the court would go back with him. Then the Judge gave the frightened boy to Mrs. Person, who quickly left the room and returned to her home at 160 Pacific Street, where she barricaded herself in.

## DIED KISSING A ROSE FROM GIRL

Philadelphian, Rejected, Began Flower from Her Hair, Goes to Hotel and Shoots Himself There.

WAS A CIVIL ENGINEER.

TRENTON, N. J., Oct. 31.—Pressing to his lips a crushed rose which he had begged from the girl he loved, William Andrews, a Philadelphia civil engineer, shot himself through the head an hour after she had rejected him. His dead body was identified at the United States Hotel by Thomas Allibone, the girl's brother, for whom Andrews left a note.

Andrews was employed by the city of Philadelphia, and for months had been a devoted admirer of Miss Rose Allibone, of Trenton. He came here frequently to see her. He came yesterday, determined to know his fate, and went to Miss Allibone's house last night. What passed between the young people no one knows, except that Miss Allibone told him she could not become his wife. In her black hair she wore a red rose, and, as the rejected lover left the house, he took her hand and begged her to give him the flower that she might always be fresh in his memory.

Leaving the house he went directly to the hotel, where he wrote a note to the girl's brother, asking him to identify him and take charge of the body. Soon after he entered his room employees of the hotel heard a shot, and, breaking in the door of his room, found the young man dead on the floor. The revolver was clutched in his right hand, while in his left was the rose, crushed against his mouth.

## ABSORBING PROBLEM

Of the Present Day.

The absorbing problem of to-day is, how to expend one's income so as to attain the best results; that is, get full value for one's money.

It may truthfully be said that this has been, is, and always will be an absorbing problem to those with limited means; but the fact remains that, with the price of living necessities constantly rising, one must husband one's resources more carefully than ever before if he would live within his income. In saying that prices are rising, we except one article which has come to occupy a prominent place in the family medicine chest, and that is the specific for piles or hemorrhoids known as Pyramid Pile Cure. This remedy is still sold by druggists at the old prices of fifty cents and one dollar, and these prices will remain unchanged. Those to whom this preparation has brought relief and a cure after years of suffering do not need to be told of its merits; others are advised that it is the greatest boon ever discovered to all those afflicted with any form of piles; it is in suppository form, is easily applied, reaches the seat of the complaint, and gives immediate relief and a lasting cure.

The reader may have tried salves, ointments and lotions without benefit, and feeling that his money has been wasted, resolves to suffer on rather than experiment further. The reason for the failure of these treatments is that they do not reach the seat of the trouble, and hence do not remove the cause, as does Pyramid Pile Cure. A little book describing piles, their cause and cure, is published by the Pyramid Drug Co., Marshall, Mich., and any one may procure a copy by sending name and address to above firm. As showing the estimation in which this remedy is held by the public it may interest the reader to know that its sales now exceed those of all other pile remedies combined.

# The Only Way That Money Can Be Saved in the Purchase of Diamonds.

One of the most important branches of Jewelry Manufacturing is the making of rings. This early engaged the studios attention of the LAMBERT artists, stonemasons and goldsmiths. Season in and season out, DIAMOND RINGS are the standard rings. The manufacture of the special mountings in the LAMBERT FACTORY, in the same building with the LAMBERT STORE, was simple. It saved money. It insured exclusive designs. To offer DIAMONDS at prices which meant the same proportion of saving, one avenue only was open. They must be bought by the LAMBERT STORE in Europe, where the best cutting is done, and imported, without either importer's or middleman's profit. Those conversant with the diamond trade know there are no good cheap diamonds. Only by saving as many profits as possible can the prices of desirable diamonds be cut down. This is the LAMBERT way.

Rings only are presented to-day—because no one statement can encompass the complete LAMBERT stock of high grade Jewelry, Watches and Precious Stones. They must appear in rotation, though all are present in the LAMBERT STORE at all times.

## Five Sparkling Examples from Several Hundred Diamond Rings.

\$27.50

\$35.00

This is a finely cut stone, the size being approximately indicated in the cut. Solid 14-karat gold, hand-made mounting. With importer's and jobber's profits added it costs fully twenty-five per cent. more at Broadway and Fifth Avenue stores.

Enough larger than the first stone to make a notable difference, and equally well cut. Solid 14-karat gold, hand-made mounting. Not to be compared in either appearance or value with poorly cut stones which are offered as specially cheap.

Same style setting and same quality stone, imported by the LAMBERT STORE, and guaranteed to be the equal in every particular of a diamond of the same size for which the high-priced jewellers ask more. Solid gold 14-karat mounting, hand made.

Taper band ring, with mounting designed and made in our own factory, of solid 14-karat gold. Set with fine diamond which was selected because it was a GOOD diamond and not because some blemish would enable us to offer it at a lower price than is asked elsewhere.

Belcher ring, preferred by some ladies and gentlemen because a glove slips over it easily. The unimpeachable quality of the diamond gives it a place in the LAMBERT collection. Mounting of solid 14-karat gold, hand made in the LAMBERT FACTORY.

## Wedding Rings with Virtues of Their Own.

No subject is so interesting, when it interests at all, as Wedding Rings. Their sentimental value must have honest material value back of it. The LAMBERT FACTORY began its long career with these LAMBERT SEAMLESS WEDDING RINGS, which still hold their place as the finest quality plain rings produced in the world. No extra charge for engraving.

## Old Style Signet Rings Faithfully Reproduced.

Quality of metal as well as design of the old Signet Rings is here reproduced. Solid 14-karat gold hand made Ring, with shank handsomely hand carved. One selected from a large variety of designs. Our artists are specially skilled in cutting the seals, obverse or reverse.

Finely carved snakes are twined about the shank of this old pattern Signet Ring, which is also of solid 14-karat gold and hand made. Like every other article of Jewelry here sold, it is accompanied by the carefully protected LAMBERT GUARANTEE.

## Old Jewelry Carefully Refashioned or Remounted.

Many old and discarded pieces of Jewelry may be restored to their original elegance by the hands of intelligent artists and artisans such as are employed in the LAMBERT FACTORY. When newer designs are preferred, the gold of the old pieces may be remodelled. Your idea may be given to an artist in our factory, and he will sketch it for your approval.
